

Gestetner

Year after
year, the
experts
agree...

Gestetner
leads the
way.

The Gestetner product line is highly regarded by document management professionals and leading industry experts alike.

At Gestetner, our mission is to help you improve the productivity of your business by managing the lifecycle of your documents from beginning to end. Whether your documents are electronic files, hard copy originals – or a combination of both, we help you do this with hardware and software that make it easy to print, copy and scan in black and white and full color, and fax – all from your desktop.

Our outstanding products have received numerous honors from the following impartial organizations:

- **Better Buys for Business**, an influential guide that is widely acknowledged as the office equipment industry's counterpart to Consumer Reports.
- **Buyers Laboratory, Inc.**, an independent office equipment testing organization since 1961, providing business consumers with impartial test results.
- **Business Equipment Research & Test Laboratories (BERTL)**, provides independent performance analysis and ratings of Digital Document Imaging Systems.

Today's office needs have changed and Gestetner systems and software can help you meet them. Print, copy, scan and fax from your desktop using one system. Store and retrieve frequently used documents from the system control panel as you need them. Store and retrieve documents from an electronic file room – no matter who created them. At Gestetner, we haven't just kept up with the technology, we've surpassed it year after year, award after award.
